BUILDINGS AND GROUNDS.

The College building occupies an elevated site within the town limits. It is a double-story frame building containing a spacious chapel and two society halls on the lower floor, and four lecture rooms and a small laboratory on the upper. The Dormitory, situated on the campus, is a two-story brick structure and contains sixteen rooms, thus offering accommodation for a number of students. The Campus embraces seven acres and is studded with shade trees.

The College is owned by a Board of Trustees and is controlled by them. This Board is composed of members of the English Evangelical Lutheran Synod of Missouri and other States and of others in sympathy with the work of this Synod.

COURSES.

Three courses of study are open to the student :

THE CLASSICAL COURSE, ending with Senior Class, includes all the branches laid down in the curriculum and leads to the A. B. degree.

THE NORMAL COURSE, ending with the Sophomore Class, includes all the branches laid down in the curriculum for the first four classes, omitting Latin from High School Class B on, Greek, Higher Chemistry ; and adding Zoology, Botany, Astronomy,

Logic, Psychology. In these added studies the Normal Course Classes are combined with the respective classes in the Classical Course.

THE ECLECTIC COURSE runs through all six classes. Obligatory branches are English and Religion throughout, Mathematics to Sophomore inclusive. In addition to these obligatory branches the student in this course must elect enough studies to give him an aggregate of fifteen lessons a week. He may elect more.

GENERAL INFORMATION.

Applicants for admittance will be subject to an examination and entered into any class for which they show themselves prepared. Those who are not known to some member of the Faculty must present testimonials from responsible persons as to character, and whenever possible, certificates from schools attended in the past. It would be well for such as live at a distance, to write to the President of the school for particular information before appearing in person.

The text-books, as may be seen from the report of class work, are carefully selected and the list revised more or less every year. In order to avoid much confusion arising from the use of different texts and editions, the necessary books should be obtained from the agent here at publishers' rates. Expenses are estimated as follows :

Tuition for term of five months, one half school-year :

| | | | | |
|---------------------------|---|---|--------------|---------|
| High School Classes | - | - | - | \$12.50 |
| College Classes | - | - | - | 20.00 |
| Board (private) per month | - | - | 6.00 to 8.00 | |
| Rent per month | - | - | - | .25 |

The rooms in the dormitory being unfurnished, each student must bring the necessary furniture and clothing, or come prepared to purchase the same. Fuel, Light, Laundry, and Medical Expenses are extra. Books need not cost more than \$10.00 per year.

Attention is called to the following resolutions of the Board of Trustees :

1. No one is allowed to enter school, without the consent of the Board, who has one year's tuition or more unpaid.

2. Students who secure other students, shall receive a reduction of one-third of their tuition for every one whom they induce to enter, but only after all tuitions of both parties are paid.

3. Parents who enter four children shall also receive a reduction of one-fourth on their tuition.
